Here at Roche Healthcare, we have various traditional care homes that are fully converted, equipped, and staffed for their residents. We also have 'Extra Care' services in Elland and Brighouse, helping people achieve independence, with a little helping hand on site if needed!

Our teams are at the heart of our organisation. We pride ourselves on our impeccable standards of care and pride ourselves in having team players with strong caring qualities, dedication, and extremely high standards in everything they do.

If you would like to join our team, we'd love to hear from you!

THE ROLE

Our residential care workers play a crucial and positive role in providing care and support to individuals residing in our residential and extra care homes.

You will assist people who live at the home who have difficulty with daily activities due to age, illness, disability, or other circumstances.

You will offer a range of support such as assistance with personal hygiene, meal assistance, medication management and companionship.

The residential care worker role is rewarding and positive as it allows for making a meaningful difference in the lives of individuals in need of care and support!

Our Senior Care Workers also provide vital support in our services. In addition to the above, they also support with more complex duties such as medication administration, but they also support with the day-to-day management of the home, including performing supervisions and training new staff.
